6. [Try It](#)

Use this endpoint to submit the Midjourney [/prefer remix](#) command to your [Discord Midjourney channel](#).

| **<https://api.useapi.net/v2/jobs/remix>**

#### Request Headers

Authorization: Bearer {API token}  
Content-Type: application/json

**API token** is required, see [Setup useapi.net](#) for details.

#### Request Body

```
{
  "channel": "Discord channel id",
  "replyUrl": "Place your call back URL here",
  "replyRef": "Place your reference id here"
}
```

- **channel** is optional, if not provided randomly selected available account from [account/midjourney](#) will be used. See [Setup Midjourney](#) for details. Specify the **channel** value when you wish to use a specific account from the configured list at [account/midjourney](#).

- **replyUrl** is optional, if not provided value from [useapi.net account](#) will be used.  
Place here your callback URL. API will call the provided **replyUrl** once job completed or failed.  
Maximum length 1024 characters.  
We recommend using sites like [webhook.site](#) to test callback URL functionality.
- **replyRef** is optional, place here your reference id which will be stored and returned along with this job response / result.  
Maximum length 1024 characters.

```

## Model

```
{ // TypeScript, all fields are optional
  jobid: string,
  verb: 'remix',
  status: 'completed' | 'failed',
  created: string, // YYYY-MM-DDTHH:mm:ss.sssZ, ISO 8601, UTC
  updated: string, // YYYY-MM-DDTHH:mm:ss.sssZ, ISO 8601, UTC
  discord: string, // Provided for debugging purposes only, contains the first 3 and
the last 3 characters of the original value
  channel: string,
  replyUrl: string,
  replyRef: string,
  messageId: string,
  content: string,
  timestamp: string,
  error: string,
  errorDetails: string,
  code: number
}
```

## Examples

- [Curl](#)
- [JavaScript](#)
- [Python](#)

```
curl -H "Accept: application/json" \
  -H "Content-Type: application/json" \
  -H "Authorization: Bearer ..." \
  -X POST https://api.useapi.net/v2/jobs/remix \
  -d '{"channel": "..."}'
```

## Try It
